

Cleantech Services Network Completed Projects Log

Members of Toronto Hydro’s Cleantech Services Network are required to report project details stemming from Cleantech Services Directory connections to Toronto Hydro twice per year. The reporting periods are January 1 to June 30 and July 1 to December 31. Once complete, please email the form to cleantech@torontohydro.com. Our Climate Action team may contact you if they have any questions regarding your submission.

Guidelines

- 1. Project location:** Indicate the general location where the project was completed by inputting the first three digits of the postal code in the field provided.
- 2. Service provided:** Select the type of service provided from the dropdown list of options.
- 3. Technology installed:** If a technology was installed as a result of the service provided, select the type of technology from the dropdown list of options. If no technology was installed, select “Not applicable” in the “Technology installed” field.
- 4. Technology size:** Indicate the size of the technology installed in either tonnes **or** kW. If no technology was installed, select “Not applicable” in the “Technology size” field.
- 5. Number of units installed at the project location:** Specify the number of units installed at the project location.
